PROFESSIONAL SUMMARY

Identity and security professional with over 2.5 years of hands-on experience in access provisioning, deprovisioning, and lifecycle management across Active Directory and Microsoft Entra ID, with ServiceNow-based request and incident management. Experienced in processing and resolving 100+ annual access requests, conducting bi-annual access reviews, and monitoring 700+ daily authentication events. Led response to a confirmed brute-force intrusion, correlating logs and containing the threat. Strong in documentation, audit evidence, and NIST SP 800-series access-control standards.

TECHNICAL SKILLS

Access Provisioning & Administration: User lifecycle (joiner-mover-leaver), provisioning and deprovisioning, role-based access control, access reviews and recertification, least privilege

Directory & Identity Platforms: Active Directory (users, groups, OUs, Group Policy), Microsoft Entra ID, MFA, Conditional Access

Request & Incident Management: ServiceNow (incident, request, and change tracking), SLA-driven prioritization, request closure and follow-up

Standards & Documentation: NIST SP 800-series access control, CIS Benchmarks (working familiarity), audit evidence, access change records

Monitoring & Security Tools: Splunk (SIEM log search and alert triage), Microsoft Defender for Endpoint, Wireshark, Security Onion

Scripting & Automation: Python (boto3), PowerShell, Bash (familiar), JavaScript, Java, Git/GitHub

Cloud & Platforms: AWS (IAM, boto3), Azure (learning), Windows Server, Linux (Ubuntu/Kali), TCP/IP, DNS, DHCP, firewalls

PROFESSIONAL EXPERIENCE

IT Security Coordinator | MT Troupe Logistics — Charlotte, NC *Feb 2024 – Present*

- Process and resolve 100+ annual access requests through ServiceNow — account creation, permission changes, and deprovisioning — tracking each to closure
- Administer identity and access for 20+ company and partner users across Active Directory and Entra ID; manage user, group, and device administration, MFA, and permissions
- Execute bi-annual access reviews across 50+ records, remediating 10–15 stale or excessive access cases and documenting outcomes for audit
- Monitor 700+ daily authentication events in Splunk and Defender for Endpoint; triage and respond to 30+ alerts monthly
- Led response to confirmed brute-force intrusion — correlated 2,500+ authentication events, contained threat, and delivered findings report with root cause
- Produce risk assessments and incident reports aligned to NIST SP 800-series; track vulnerability and patch remediation; maintain runbooks and SOPs
- Use Python and PowerShell to automate administrative and security assessment work

PROJECTS

SIEM Detection Engineering Lab

Splunk | Security Onion | Suricata | Zeek | Wireshark | Kali

- Built SIEM environment with custom detection rules for brute-force, unauthorized access, and anomalous traffic; mapped to MITRE ATT&CK and developed triage workflows

Microsoft Entra ID Lab — Conditional Access & Access Reviews

Microsoft Entra ID (P2 trial) | Conditional Access | Access Reviews | Sign-in Logs

- Built a personal Entra ID tenant, configured a Conditional Access policy requiring MFA for a test group (report-only rollout), validated it with the What If tool and sign-in logs, and ran an access review end to end

PAM + Zero Trust Access Lab

HashiCorp Vault | Tailscale (WireGuard) | PostgreSQL

- Deployed a PAM and Zero Trust lab issuing short-lived credentials (1-hour TTL) through Vault to eliminate standing privileged access, with a documented threat model

IAMGuard — Cloud Security Scanner

Python | AWS IAM API | boto3 | GitHub

- Built and open-sourced a Python tool that audits AWS IAM for misconfigurations and generates risk-scored remediation guidance; surfaced 4 real findings on first run

EDUCATION

B.Sc. Computer Science | Lincoln University of Pennsylvania — Pennsylvania *Aug 2022 – May 2025*

GPA: 3.3 | Dean's List: Fall 2022, Spring 2023, Fall 2023, Fall 2024 | Varsity Men's Basketball — Division II Student-Athlete

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- CompTIA Security+ (SY0-701) — In Progress; Microsoft SC-900 — pursuing
- TryHackMe — SOC Level 1, Phishing Analysis, Network Security, Active Directory Security learning paths
